

Certificate of Compliance REACH Declaration

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force. This Regulation establishes specific duties and obligations on companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles. Under the structure of the REACH Regulation, Ei Electronics is a manufacturer and supplier of “articles” to our EU customers. We do not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances”.

Ei Electronics products do not contain Substances of Very High Concern or if there are SVHC present, the content is less than the 0.1% (wt/wt) as defined by REACH Article 57, Annex XIV, Directive 67/548/EEC. Therefore, the requirement in REACH Article 7 (2) to notify ECHA if a product/article contains more than 0.1% wt/wt of an SVHC and tonnage exceeding 1 tonne per importer per year is not applicable. Ei Electronics does not manufacture or import chemicals, therefore has no obligation to register substances.

Ei Electronics is considered to be a downstream user, and we confirm REACH compliance via our supply chain partners. We continually work with our suppliers to ensure that all requirements are met and that they remain in full compliance with current and future REACH requirements. Annex XVII, also known as the Restriction List, includes all the restrictions adopted in the framework of REACH and the previous legislation, Directive 76/769/EEC. Ei Electronics has reviewed the latest Restriction List of 74 substances as published November 12, 2024 and declares that all supplied products meet the conditions for use and are thus compliant with Annex XVII.
